<b>SECTION 7 – HANDLING</b>	SECTION 7 – HANDLING AND STORAGE	
Storage	Keep out of reach of children. Store under lock and key, in original container,	
	tightly closed, away from human and animal foodstuffs, medicines and	
	remedies, seeds and fertilisers. Segregate from incompatible hazardous	
	substances (Classes 1, 4 & 5). Store in a cool, dry, well ventilated place and	
	protect from sunlight.	
Handling	Avoid contact with skin and eyes and inhalation of concentrate or spray mist.	
	When using, do not eat, drink or smoke. Wash face and hands before eating,	
	drinking or smoking.	
Handler Competence	Persons responsible for the storage, handling, mixing, applying or disposing of	
	this product must be trained, experienced or supervised in accordance with	
	requirements for class 6 and 9 substances of the Health and Safety at Work	
	(Hazardous Substances) Regulations 2017 part 4.5 and the Hazardous	
	Substances (Hazardous Property Controls) Notice 2017 Part 4 Subpart C.	
Additional Requirements	All aspects of storage, handling, use, disposal and record keeping must be in	
	accordance with NZS 8409:2021 'Management of Agrichemicals', and relevant	
	local and regional council plans.	

<b>SECTION 8 – EXPOSURI</b>	E CONTROLS AND PERSONAL PROTECTION
Engineering Controls	Handle in well ventilated areas only. Product is used outdoors. Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated. The extent of these protection measures depends on the actual risks in use. If airborne mists or vapours are generated, use respiratory protection to a minimum of Organic Vapour cartridge type and/or local exhaust ventilation controls. Assess exposure and use any additional measures to keep airborne levels below any relevant exposure limit. Follow precaution statements on the label and the use and safety directions in Code of Practice for the Management of Agrichemical NZS8409.
Personal Protection	Use only protective equipment bearing the mark of the Standards Association of Australia/ New Zealand. In case of exposure, when mixing, applying or when likely to have any exposure to concentrate, mixes or mists/vapours suitable <b>chemical resistant</b> clothing must be worn including; coveralls, face shield, respiratory protection (organic vapour minimum specification) gauntlet gloves and boots/footwear.
