HAZARD CLASSIFICATION

Eye irritation Category 2, Hazardous to the aquatic environment acute Category 1, Hazardous to the aquatic environment chronic Category 1

WARNING

Causes serious eye irritation. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

HANDLING PRECAUTIONS

When mixing or applying, wear chemical resistant protective clothing, respiratory protection, gloves, footwear and goggles. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after work.

STORAGE

Store in original container tightly closed and in a dry, cool area away from foodstuffs. Storage must be generally in accordance with NZS8409 Management of Agrichemicals. See the SDS for further information.

DISPOSAL

Dispose of this product only by using as per label directions, or at an approved hazardous substance waste receival facility, or local authority waste transfer station. Triple rinse empty container and add residue to spray tank. Recycle empty container through Agrecovery (0800 247 326, www.agrecovery.co.nz). Otherwise submit to a local authority waste transfer station. Do NOT use the container for any other purpose. Avoid contamination of any water supply with chemical or empty container.

PRODUCT INFORMATION

AddaWett 1000 is a general purpose, non-ionic surfactant designed to improve the coverage of crop protection products. AddaWett 1000 reduces the surface tension of the spray and increases the spread over the surface of the plant to assist in spray coverage. AddaWett 1000 will enhance the coverage and adherence to waxy and hairy hard-to-wet surfaces. AddaWett 1000 aids the coverage and penetration of the sprays into cracks and crevices and will form an even spray on the target plants. AddaWett 1000 also resists light rainfall and reduces the erosion of the chemical from the leaves.

RECOMMENDATIONS

Follow the crop protection product labels for specific recommendations on non-ionic adjuvants.

Insecticides, Fungicides and Plant Growth Regulators: Use 25 ml/100 litres of water. On hard to wet surfaces, e.g. grape bunches, forage brassicas, cabbages, onions etc., increase the rate to 50-75 ml/100 litres water.

For vineyard grapes: Use with sulphur, other fungicides and insecticides at 75 ml/100 litres.

Herbicides: Use 25-50 ml/100 litres and follow the herbicide label recommendations. Do not use with selective herbicides unless a non-ionic surfactant is recommended.

Use with sulphur: When used with sulphur products, refer to the sulphur label for temperature use restrictions.

WARNING

DO NOT USE ON SENSITIVE FRUIT CROPS, TABLE GRAPES OR ORNAMENTAL CROPS INCLUDING THOSE GROWN FOR CUT FLOWERS, FOLIAGE AND NURSERY PLANTS.

Use an alternative adjuvant with a proven history of crop safety. AddaWett 1000 may induce increased levels of russet in apples, pears and other russet prone crops.

COMPATIBILITY

AddaWett 1000 is compatible with most commonly used insecticides, fungicides, herbicides and foliar fertilisers.

FIRST AID

If swallowed do NOT induce vomiting. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If skin or eye contact occurs remove contaminated clothing and flush skin or eyes with running water.

SAFETY DATA SHEET

A Safety Data Sheet is available from the Kenso NZ website: www.kenso.co.nz

CONDITIONS OF SALE

Kenso Corporation (M) Sdn. Bhd. will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by Statutes applicable to the sale or supply of these goods. To the extent allowed by such Statutes the liability of Kenso Corporation (M) Sdn. Bhd. is limited to the replacement of the goods or (at the option of Kenso Corporation (M) Sdn. Bhd.) the refund of the price paid and where possible sufficient part of the goods to enable proper examination being returned to Kenso Corporation (M) Sdn. Bhd. within thirty days of delivery.
